EDUCATION

BS in Data Science & Applications, Indian Institute of Technology Madras May '25 — Present

B.Tech in Electronics and Communication Engineering, Shri Mata Vaishno Devi University, Katra Aug '25 — Present

EXPERIENCE

Research Intern Jun '26 — Jul '26
[National Institute of Technology Patna](#) Patna, Bihar, India

- Submitted a 21-page structured review report on "Large-Scale Data Processing with Parallel and Distributed Randomized Extreme Learning Machine Neural Networks", under Dr. Ayaz Ahmad (Dept. of Mathematics and Computing Technology, NIT Patna)
- Implemented ELM in Python/NumPy — trained a network in a single matrix step (Moore–Penrose pseudoinverse) instead of backpropagation, and verified it on XOR and sklearn datasets
- Showed how ELM training splits across machines using MapReduce: in a worked example, a 400 GB matrix problem became ~4 GB per machine on a 100-machine cluster

Summer Intern Jun '26 — Present
[Afflatus Gravures Pvt. Ltd.](#) Noida, UP, India (Remote)

Working in the Robotics Section on Machine Learning and Data Analysis

PROJECTS

Python Mini-Projects (5) [Link](#)

- Built 5 terminal apps in Python (Expense Tracker, Snake Game, Football Match Predictor, QR Code Generator, Typing Speed Test) using OOP, Pandas, Matplotlib, and qrcode; each with documented READMEs

TECHNICAL SKILLS

Languages Python, C

Data Stack NumPy, Pandas, Matplotlib

Tools Git, GitHub, MATLAB, Google Sheets, Microsoft Excel
